

Subject: Not your grandma's investment club

I just hate seeing old ladies standing by the cart corral at Wal-Mart, greeting customers.

You know they're not doing it because they LOVE the work. Who would?

They're on their feet all day long, talking to strangers when they could be at home with their families and enjoying their retirement.

The only reason they do it is because they need money. For presents, for medicine, for food... just getting by.

I never want that to happen to me. Or to you.

You may not see yourself in that exact position. You might be frustrated because you're constantly working longer and harder than you want with no end in sight.

That's no way to live.

And that's why I've put together some resources for you to find better ways to invest. The goal here is to create passive income... and by that, I mean the passive income you bring in every month is more than your monthly expenses.

Now that's financial freedom. Wouldn't you agree?
