

Our CVL potfolio gained 179% in 2017 and we're still going!

Pass the brownies, it's time to celebrate!

In 2017 our POTfolio went up 179%.

If you would have put \$1,000 at the beginning of the year into this fund, you would now have \$2,790. If you invested \$15,000 you would now have \$26,850.

There is nothing like starting the year counting money that seemed to just magically sprout from the ground and grow leaves.

... all the while scarfing a batch of warm brownies.

It almost seems too good to be true.

I mean, compared to the S&p 500 (which gained 19% in 2017) and the Nasdaq (which gained 25%)... you have to admit that the potfolio totally smoked the rest of the market!

It's no wonder our earnings got so high. The potfolio is made up of the highest performing stocks in one of the biggest emerging markets in investing history.

If you've been standing on the sidelines, now is the time to pay attention. Because it's not too late to get in on this.

And by "this" I mean investing in pot. Ganja. Cannabis. Mary Jane. Weed.

Sure, you may be "against" marijuana for many very important and logical and moral reasons. But hear me out because this could be the best investment decision you've ever made.

Legal weed is already a \$7 billion market in the U.S. — and by 2020, it's estimated to reach \$22 billion in the U.S., and \$500 billion globally.

Thats a 314% gain!

Normally I wouldn't say this, because I hate to over-promise, but I think that 314% is a little conservative.

I think that the pot market is about to see an astounding explosion of profits, and you can be part of it.

You see, right now, 26 states have legalized medical marijuana, and seven states have legalized recreational marijuana.

But marijuana is on the brink of becoming legal at the federal level. And when it does, the floodgates will open....

... it could happen as soon as 2020.

Forbes contributor Mark Fidelman said that it “*will make investors extremely wealthy.*” And of course I couldn’t agree more.

That’s why I want to invite you to join us at [cannavestorlab](#) and take advantage of this unique opportunity to profit from this exploding market.

I mean, many of the Pot Stocks I'm About to Share With You Are Already Experiencing Massive Gains - **Some over 2,000%!**

Susan

P.S. It doesn’t matter whether you “support legal weed” or, just for medical purposes... or not at all.

The INVESTMENT opportunity is real, it’s here and it’s only going to expand from this moment on. Click here to get in on it.
